ELEVEN'S Waffle RECIPE

Eleven is totally obsessed with Eggos - but what are they, and how can you make them yourself?

MAKE YOUR OWN

WHAT YOU NEED

- 250 g plain flour
- 4 tsp of baking powder
- 2 tbsp of caster sugar
- 1 tsp of salt
- 2 eggs
- 375 ml of warm milk
- 75 g of butter
- 1 tsp of vanilla extract

A waffle maker (though you can make these as pancakes on the hob if you don't have one!)

Eggos are a brand of frozen waffles made by Kellogg's. However, they aren't available in the UK (though if you look in the freezer section of most supermarkets, you will find other brands sell frozen waffles).

INSTRUCTIONS:

First things first! Ask an adult to help, especially if you're going to be making pancakes rather than using a waffle maker.

STEP 1

In a bowl, beat the eggs and add the milk, butter and vanilla extract.

STEP 2

Now mix in the flour, baking powder, sugar and salt.

STEP 3

Make sure the mixture is well beaten and not lumpy.

STEP 4

If you're using a waffle maker, heat it up and pour in the amount of mixture suggested by the manufacturer.

OR...

If you're making pancakes, heat your frying pan and wipe it (carefully) with some kitchen roll with a touch of sunflower oil on it, then pour in enough mixture to cover the surface area of the pan. Cook it for a minute or so on one side, until it is solid, then use a spatula to flip it over and cook the other side.

SERVING SUGGESTIONS:

You can put fruit, ice cream, chocolate sauce, syrup, honey, butter or jam on your waffle! Whatever takes your fancy!

STRANGER THINGS

What happens next?

Ok, so this kind of thing might be easy for someone with special powers like Eleven, but that doesn't mean us mere mortals can't try to predict what the Duffer brothers have up their sleeves for us when Season 5 finally lands. Here are some of the more interesting theories...

ZOMBIE MOVIE

Maybe Vecna has kept all his victims alive in the Upside Down - after all, he was able to survive there for years. He will open another gate and bring them back as a wave of attackers, perhaps operating like a hive mind as the Mind Flayer did in Season 3.

EDDIE RETURNS

Eddie was hugely popular, and there have been online petitions to bring him back. It's possible he might return as a half human, half demon but with good intentions to help defeat Vecna. Please, please, please be true!!

WILL THE POWERFUL

Having spent quite some time in the Upside Down, it's possible that Will acquired powers of his own - possibly even stronger than Eleven's - but hasn't realised it yet. He could end up fighting alongside El to destroy the Upside Down - or his power might turn him into another Vecna and the team need to defeat him!

IT'S ONLY A GAME

There's a popular fan theory that everything is happening inside a game of D&D that Will is running. None of it has really happened, and it's all just a quest he has invented. The theory is that he is manipulating everything that happens - there are certainly strong similarities between the series and the D&D game that Will runs within it.

001 011

SHE SAID YES!

They've been through such a lot, it feels kind of fated that they should tie the knot at the end of Season 5, doesn't it? Eleven could be a bridesmaid and Murray could be best man. It would be epic...

ELEVEN DIES

She has willingly sacrificed herself before, surviving when she honestly believed she would die ('Goodbye, Mike' remember?). There's a chance that the only way to close the gate permanently and cut the link between our world and the Upside Down would require so much of her mental energy that it destroys her? We hope not, but we know that El is brave enough to do it...

What do you think will happen in Season 5?

Who will be the biggest hero?

Most shocking moment/death?

Nancy ends up with... JONATHAN STEVE NO ONE

Eddie returns? YES No Does Will get powers? YES No

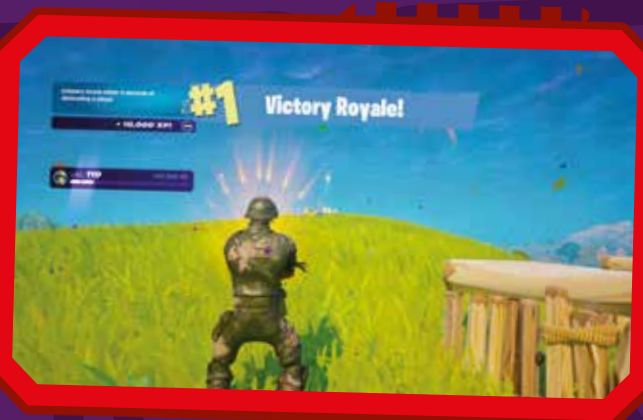

FORTNITE OG MODE: WHAT IT IS AND WHY IT'S BRILLIANT

The Fortnite OG game mode has quickly become a favourite with **long-time players** and **curious newcomers** alike. Whether you played Fortnite back in Chapter 1 or joined more recently, OG mode is a love letter to the early days of the game. It brings back classic weapons, locations and mechanics in a **fast-paced, nostalgia-filled experience** that feels both fresh and familiar. We've taken another look at the game now that it has reappeared as a permanent game mode, and we've reviewed what we feel are OG mode's best bits!

WHAT IS IT?

OG mode is a dedicated game mode that recreates the look, feel and features of Fortnite Chapter 1. In our view, it's the ultimate throwback. Players can return to iconic POIs like Tilted Towers, Retail Row, Pleasant Park and Dusty Depot, with a loot pool and visuals that reflect Fortnite's earliest seasons.

What makes it even better is that OG mode updates regularly to reflect different seasons from the original run. One week you could be racing ATKs across the desert in Season 5 and the next you're facing mechs in Season X. It keeps things exciting and ever-changing.

WHY PLAYERS LOVE IT

OG mode hits a nostalgic nerve for long-time fans who remember early Victory Royales, double-pumping shotguns and sneaky bush plays. For newer players, it's a chance to see where Fortnite began. In our opinion, it's a stripped-back version of the game that feels refreshing and fun in its simplicity.

FAST, FUN AND FULL OF ACTION

Matches in OG mode move quickly. We think you'll find that storm circles close faster, loot is easier to find and eliminations happen thick and fast. Every match feels action-packed and rarely drags. Even if you don't win, it's hard not to have fun.

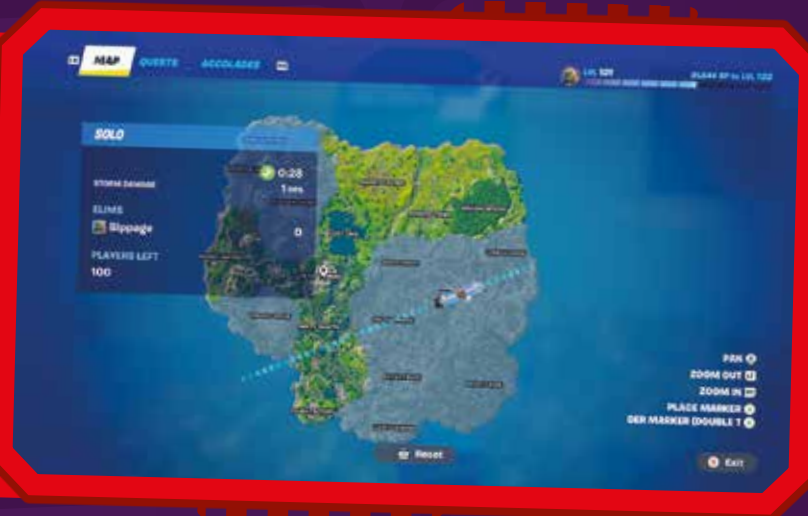

CLASSIC WEAPONS ARE BACK

We think one of the best things about OG mode is the return of iconic gear. The Pump Shotgun, Tactical SMG, Heavy Sniper and classic SCAR all make a welcome return. For many players, these weapons are what Fortnite is all about.

SIMPLER MAP, SMARTER PLAYS

The OG map may look simpler, but it demands strategic thinking. With no vaults, mythics or NPCs, players rely on map knowledge, smart movement and strong building. POIs like Salty Springs and Greasy Grove feel familiar but still full of surprises.

IT'S HERE TO STAY

OG mode started as a limited-time feature but is now part of Fortnite's permanent rotation. We think that's brilliant. It gives players a reliable, classic experience they can return to again and again.

TRICKY TACTICS: HOW TO SET TRAPS IN FORTNITE

Setting traps in Fortnite isn't just about placing an item on a wall and waiting for someone to wander into it. It's about **creativity, misdirection** and a little bit of **cheeky thinking**. Whether you're playing Zero Build or classic Battle Royale, there are loads of ways to turn the battlefield into your own personal **booby-trapped** playground.

GAMEWARRIOR SAYS

We've assessed the top trap tactics out there, and compiled the ultimate list of fiendish ways to secure that Victory Royale!

CLASSIC TRAP ITEMS (WHEN THEY'RE AVAILABLE)

Let's start with the obvious one: actual trap items. These don't appear in every season, but when they do, they can be devastating.

Wall Traps, Floor Traps, and Ceiling Traps (also known as Spike Traps) have appeared at various points in Fortnite's history. In our view, they're one of the most satisfying ways to eliminate an opponent – especially if you manage to box them in just before triggering the trap.

We say it's always worth carrying one if they're in the loot pool. The trick is to act fast – build a small box around your opponent, place a trap, and get out before they do.

LOOT BAITING: THE CLASSIC FAKE DROP

One of the easiest and most effective homemade traps is loot baiting. Simply drop a tempting weapon, medkit or pile of ammo in an open spot and wait nearby – or stake out a llama or legendary chest. The best loot bait traps are placed in obvious locations – at the end of a corridor, in the middle of a room, or just outside a doorway.

We've found that adding a Chug Jug or Legendary item to the mix increases your chances of someone falling for it. In our experience, this is a classic trick that still works surprisingly well. Just make sure you're hidden nearby and ready to strike.

DAMAGED VEHICLES: THE EXPLOSIVE DECOY

Damaged cars and bikes can become makeshift bombs. If a vehicle is on fire or close to being destroyed, a single shot can finish the job and trigger a large explosion. Park a nearly-destroyed car in a high-traffic area and wait nearby with a long-range weapon. When an opponent goes near or tries to use it – boom.

We think this tactic is especially useful in Zero Build, where players rely more on vehicles for movement. It's sneaky, satisfying, and just a little bit devious. Just be sure you're far enough away not to damage yourself.

BUSH CAMPING [YES, REALLY]

It's old-school, but it still works. Bush camping is one of the simplest traps you can set, and if you have patience, it can pay off big. Find a good bush near a loot drop or popular path, crouch inside, and wait.

In our opinion, this works best mid-game when players are rotating or distracted. Add an emote to celebrate if it works – just don't laugh too loudly.

HOW TO STAY SAFE IN ROBLOX

Roblox is an exciting world full of games and adventures, and it's a great place to make new friends and learn new skills. But while you're busy having fun, it's really important to remember how to stay safe online. Luckily we've been playing Roblox for years, so here are some of the ways that we think you can enjoy Roblox without any worries.

KEEP YOUR PERSONAL INFORMATION PRIVATE

We think that one of the most important rules in Roblox is to keep your personal details a secret. Never share your full name, address, phone number, school name, or any other personal information with anyone online. Remember, if someone asks for this information, it is best not to give it out. Keeping your private details private helps to stop strangers from knowing too much about you.

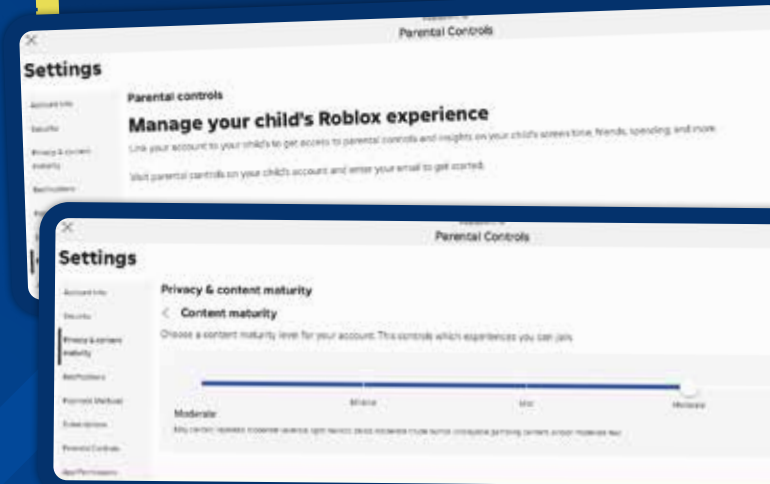

BE CAREFUL WITH CHATTING

Roblox has chat features so you can talk with your friends, but we advise that you should always be careful when chatting with others. Always use the safe chat settings that are designed to protect you from inappropriate messages. If someone sends you a message that makes you feel uncomfortable or upset, don't reply. Instead, tell a parent or grown-up right away and use the block feature to stop that person from contacting you again.

USE PARENTAL CONTROLS AND PRIVACY SETTINGS

Did you know that Roblox has special settings to help keep you safe? We think it's a good idea to ask your parents or another adult you trust to help you set up your account so that only your friends can message you or join your games. You can also set your account to private, which means that only people you know can see what you are doing. Using these controls makes it easier to avoid unwanted visitors in your virtual world.

HAVE FUN AND STAY SMART

Above all, remember that playing Roblox should be a fun and safe experience. By following these tips and using the tools available, you can enjoy all the fantastic games and adventures without worry.

REPORT AND BLOCK ANYONE WHO'S NOT NICE

If you ever see someone breaking the rules or being mean in Roblox, we say you should report them. Roblox has a simple way to report bad behaviour and it helps keep the game fun for everyone. You can also block players who aren't nice. Always let an adult know if something seems wrong - they are there to help you.

DIVE INTO ROBLOX WITH VR!

Alright, you brilliant builders and adventurous explorers! Have you ever dreamed of stepping inside your favourite Roblox worlds? Well, grab your virtual reality (VR) goggles, because now you can! Imagine building your dream house, battling dragons, or racing supercars; all while feeling like you're actually there. That's the magic of Roblox in VR!

ROBLOX IN VR: A WHOLE NEW WORLD!

Roblox is already awesome, but we think that playing it in VR makes it even more exciting. You can explore your favourite games in a whole new way. Imagine walking through the spooky hallways of a horror game, or flying high above a city in a superhero simulator. It's a totally immersive experience, and we love it!

WHAT'S VR ANYWAY?

Think of VR as a super-powered pair of goggles that take you to a completely different place. When you put on a VR headset, you see a 3D world all around you. You can move your head to look around, and sometimes, you can even use special controllers to interact with things in the game. It's like stepping into a movie, but you get to be the star!

AWESOME ROBLOX VR GAMES TO TRY:

- **Natural Disaster Survival:** Feel the rumble of earthquakes and the splash of floods as you try to survive a range of crazy disasters. We think you'll find it's much more thrilling when you feel like you're really there!
- **VR Hands:** This game is great because you can play with non-VR friends - you control a huge pair of hands and must help your friends negotiate an obstacle course by covering obstacles and helping them to progress!
- **Cook Burgers:** Ever wanted to flip burgers in a busy restaurant? In VR, you can! We found it fun to try and keep up with all the orders, and it made us feel like a real chef.
- **Robloxian High School:** Go to school, meet friends, and explore the hallways in VR. We think this is a great way to socialise and have fun in a virtual world.

WHICH HEADSET IS RIGHT FOR YOU?

To play Roblox in VR, you'll need a compatible headset. Here are a couple of popular options that we've tested for ourselves and recommend:

- **Meta Quest 2/Meta Quest 3:** These are wireless headsets, which means you don't need to be plugged into a computer. They're easy to set up, and we think they offer a great VR experience.
- **PC VR headsets (like the Valve Index or HTC Vive):** If you have a powerful gaming computer, you can use these headsets. They often offer higher-quality graphics and more advanced features. However, they are generally more expensive and we found that they need a more complex setup.

IMPORTANT GAMESWARRIOR RECOMMENDATIONS!

- Always ask a grown-up before using a VR headset.
- Take breaks! VR can be tiring, so don't play for too long at once.
- Make sure you have plenty of space to move around safely.
- Be careful of the cables if using a wired headset.

So, are you ready to jump into the world of Roblox VR? Get your headset on, and get ready for an adventure like no other!

Sometimes you work alone, while other times you join your friends to solve mysteries together. The aim is to overcome your fears and enjoy the thrill of the unknown.

HOW DO SCARY GAMES WORK?

Scary games in Roblox are designed to create a spooky atmosphere with mysterious plots and unexpected jump-scares. They often mix puzzles, chase scenes, and eerie music to set the mood, giving you a fun challenge while keeping you on your toes.

WHY ARE SCARY GAMES SO FUN?

The joy of scary games lies in the exciting mix of challenge and mystery. They let you experience a safe dose of fright and excitement, all within a colourful and creative world. And best of all, every scary adventure helps boost your bravery!

PIGGY

Piggy is a popular game that mixes a bit of horror with a fun survival challenge. In this game, you must escape from a character inspired by Peppa Pig, all while solving puzzles and avoiding traps. The game's spooky setting and clever design make it a thrilling experience without being too scary (it is Peppa Pig, after all!)

WHY WE LOVE IT

- The puzzles require clever problem-solving and spark your imagination. They constantly challenge you to work out the best way to unlock clues and advance.

Piggy is perfect for young players who love a bit of spooky adventure. It combines mystery and action in a way that is both thrilling and safe.

GAMES WARRIOR VERDICT

BEAR (ALPHA)

Bear (Alpha) puts you in a spooky chase where a mysterious bear plushy is on the hunt. You must use your wits and quick reflexes to avoid getting caught while exploring a creepy environment. The mix of simple puzzles and exciting chase moments creates a fun, adrenaline-pumping experience.

WHY WE LOVE IT

- You never know when Bear will strike, so you must stay alert and think fast. Every round feels different, keeping the tension high and the gameplay exciting.

- You can work together with other players to solve puzzles and survive longer. Co-operating with friends makes each round even more enjoyable!

GAMES WARRIOR SAYS

When you are hiding from Bear, you can find puzzles to solve that will immediately reduce the timer, meaning you don't have to survive for so long!

If you enjoy a fun, heart-pounding chase and a spooky setting, this is a great game to try. It's scary enough to be exciting without being too frightening.

GAMES WARRIOR VERDICT

Among Us EXPLAINED!

Everything you need to know!

What is Among Us?

Among Us is basically, a whodunnit mystery game set in space. At the start of the game, each player is given a role - most will be Crewmates, but at least one player will be an Imposter!

The Crewmates have a number of tasks to complete in various rooms around the map, while the Imposter is tasked with killing off the Crewmates before they can complete them all, and without being caught.

Every time a body is found, the Crewmates will have a meeting, at which they can choose to vote to eject the person they suspect is the Imposter. If they don't have any idea who the Imposter is, they can choose not to vote anyone off. If they vote to eject an innocent Crewmate, then the game continues.

Crewmates win the game by completing all their tasks OR identifying the Imposter (or Imposters) and ejecting them from the map. Imposters win the game by killing all the Crewmates OR preventing them from completing all their tasks.

It's a game of deduction - but luckily for you, we're here with some handy bits of advice on how to give yourself the best chance of winning - whether you're playing as a Crewmate or an Imposter!

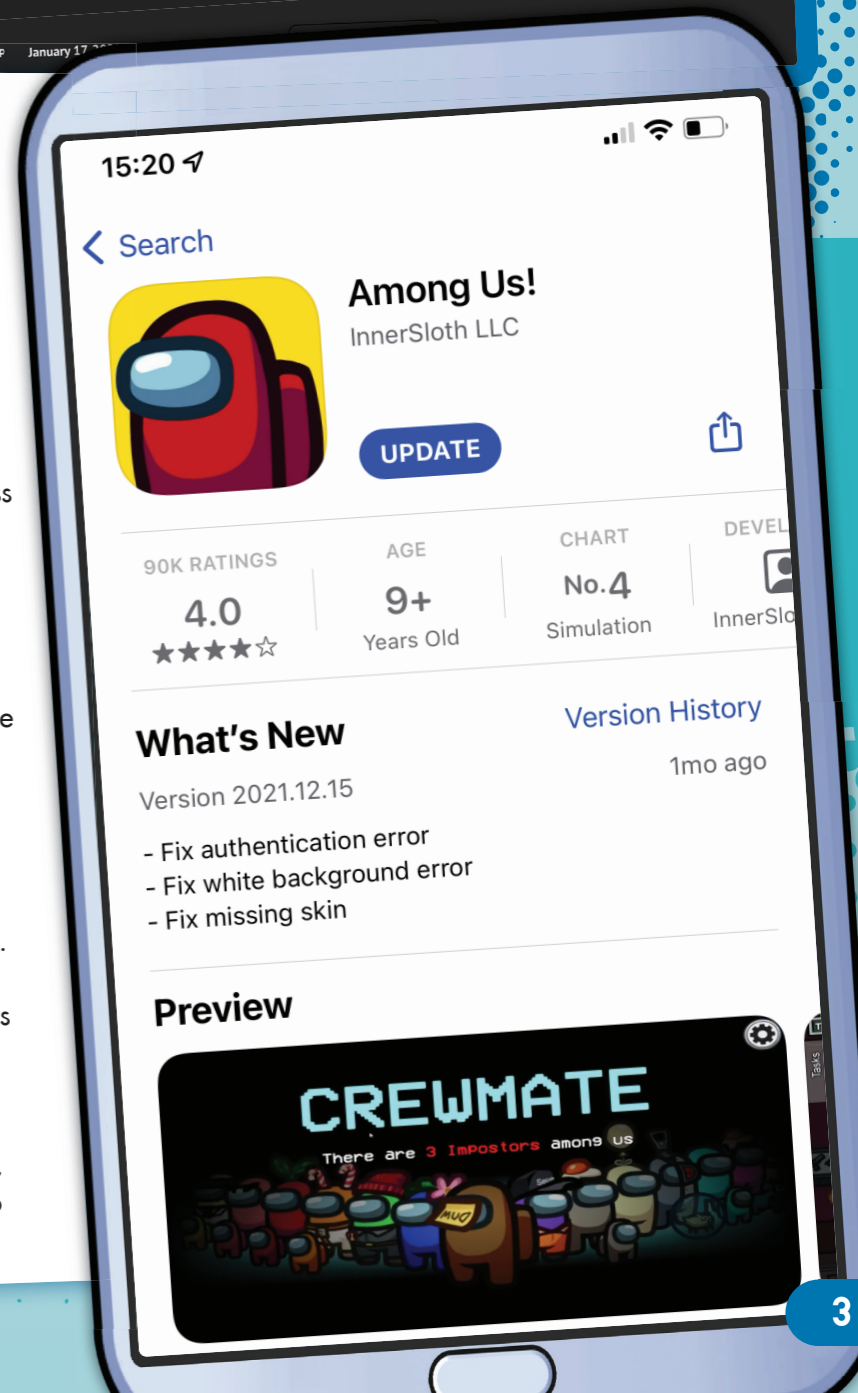

A bit of history!

Among Us is the brainchild of Marcus Bromander, one of the founders of Innersloth. He used to enjoy a game called Mafia, a card game played in person. It was a murder mystery card game where one player would be assigned as a traitor. Everyone would spread out round the host's house, and the traitor would need to 'kill' each player by approaching them and running a finger across their throat without anyone seeing them.

Bromander took the idea and set it on a spaceship - the game's initial working title was actually SpaceMafia. The game was initially launched in June 2018 for mobile only, with a Windows version following at the end of the same year.

Without a big marketing budget, not many people learned about the game, but it quickly established a small but loyal following online. All that changed when the Covid-19 pandemic took root in early 2020. As people looked around for new games to play, a number of YouTubers stumbled across Among Us and helped reach a much bigger audience. Today, it has over 60 MILLION players active every single day!

The game is now also available on Switch, Xbox and PlayStation so however you like to play your games, you can join the craze!

BEING AN IMPOSTER!

Bumping off Crewmates without being caught is a risky business! Here are some top tips to give you an advantage.

No witnesses

When you're lining up a kill, make sure that there is no-one else in the room – just you and your intended victim. If there are people around to witness the crime, they'll accuse you – and if they are persuasive with their argument, you might find yourself ejected. Try to carry out your kills in a room with more than one exit, whether that is doors or vents and look out for security cameras – if they are blinking red, then someone is watching!

Vent with care

Vents are useful, but an easy way to get caught if you're spotted entering or leaving them. Use them sparingly, and ideally only to carry out or escape from a kill.

Self-report sometimes

Self-reporting when you are the Imposter is a risk, because it immediately places you at the scene. However, it can be a good way to divert attention from yourself – just don't do it too often and be prepared to be accused of the crime yourself!

Don't frame others too early

If someone sees you making a kill and identifies you, blame them to make it sound like a double bluff. Other than that, avoid making too many accusations early on in the game. Not only does it look suspicious, if you convince everyone another player is the Imposter and they are ejected, the others will realise you aren't to be trusted. Keep false accusations to the latter stages of the game where it can make a real difference and help you win the game without time to get caught out.

Don't vote too quickly

If you constantly vote before there's even been a conversation, you will draw attention to yourself. Let others lead the conversation, and if someone else accuses another player, support that player with your vote. Other than that, don't be afraid to skip voting, especially in the early stages.

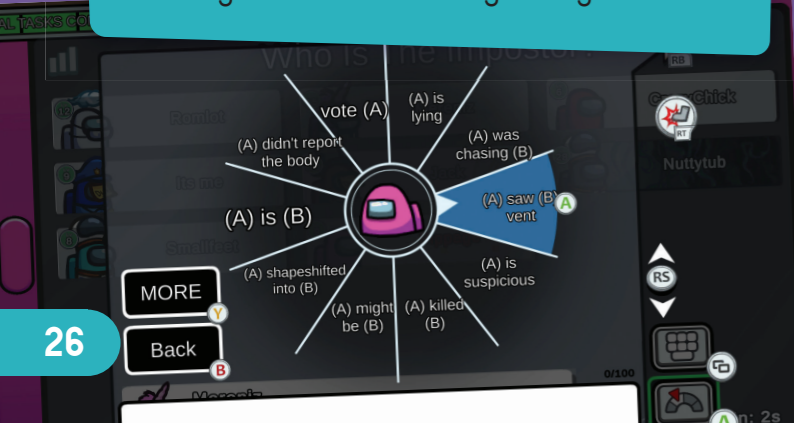

Play dumb

Act like a noob as much as you can. Even if you have a high ranking, claim you don't play this map very often, and act confused about which room is which. Ask simple questions and people will quickly start to ignore you – not knowing that you are in fact the evil genius behind it all!

Look helpful

Do what you can to look like everyone else! Pretending to carry out tasks and spending time looking at security cameras are good ways to blend in – but don't overdo it or you stand more chance of being found out!

FACTS and FIGURES

Here are some of the coolest things you need to know!

It took a team of **3 people 12 months** to create the game.

15 June 2018 – the date Among Us was **officially launched!**

Since it was launched in 2018, the game has been downloaded more than **530 MILLION** times!

The busiest time ever for Among Us was in October 2020, when it had over **60 million people** playing each day, with up to 3 million playing at the same time! Just imagine if there was only one Imposter!

The first gamer to really popularise Among Us was **Sodapoppin**, an American streamer with over 3 million followers on Twitch. From there, Among Us's following just grew and grew!

Among Us has won bags of awards since it shot to fame, picking up Best Multiplayer Game and Best Mobile Game at the prestigious Game Awards in America, as well as the **Golden Joysticks Breakthrough Award** in 2020. In 2021, it won Favourite Videogame at Nickelodeon's Kid's Choice Awards and an App Store Award for Trend of the Year: Connection as well as a host of other titles!

Among Us is so popular that InnerSloth cancelled plans for **Among Us 2** in favour of making more changes to the original game instead!

ACTIVITY TIME!

Fill the blanks (write your own):

When my lunch disappears, I shout:

" _____ !"

Principal: "Remember: we are a learning institution."

When homework appears, I whisper:

" _____ ."

When everything gets weird, I announce:

" _____ !"

Brainrot: "Learning = snackfinding."

USE THEM LOUDLY. IN THE CAFETERIA. WHILE RUNNING.

SAY GOODBYE. WAVE AWKWARDLY.

BEFORE YOU LEAVE THE ACADEMY, TAKE ONE LAST LOOK. THESE ARE THE CREATURES YOU MET ALONG THE WAY. SOME OF THEM REMEMBER YOU. SOME OF THEM ABSOLUTELY DO NOT.

**EVERYONE SAY GOODBYE.
NO PUSHING.
YES SHOUTING.**

TRALALERO TRALALA

Shouting his name one last time. Probably louder.

BALLERINA CAPPUCCINA

Mid-spin. Still not spilling.

CAPPUCCINO ASSASSINO

Nods silently. You passed. Don't ask how.

TUNG TUNG TUNG SAHUR

Waving enthusiastically. It is not the right time.

BOMBOMBINI GUSINI

Taking off. Destination unclear.

TRIPPI TROPPI

Doing two different things at once. Neither is goodbye.

BOMBARDINO CROCODILO

Giving a farewell speech. It is long. Nobody stops him.

BRR BRR PATAPIM

Standing perfectly still. Has been here the whole time.

Messages from the Academy

You've reached the end of the book. There is nothing else you're meant to do now. Except remember this place. And maybe draw a bit more. Thank you for visiting Brainrot Academy.

**DON'T CRY.
OR DO.
WE DID.
COME BACK ANYTIME.
WE'RE STILL HERE.**

One last thing

If you made a creature, they still exist. If you named it, it knows. **If you drew badly, it is proud of you.**

**BYE. ARRIVEDERCI.
CIAO.
SEE YOU IN THE
CORRIDOR.**
